

# "Crossroads"

Music By : Factory Seconds Band

Lyrics By : David Robert Moore

There is a road they call destiny  
Some will never take it and others will lead  
Those left in the middle  
Get caught in mediocrity

If it's fun I'd rather do it was my calling card  
Never thinking of the future or a place to start  
But it's time to stop and think  
No matter if it's hurts or if its hard - yeah

I'm not gonna wait and have it pass me by  
The time is getting short to be left behind  
If it's time to make a difference  
Tell me how and show me a sign

Here I stand at the crossroads  
Show me a different way  
I gotta to move on before I go insane  
Because I can't go down that  
Lonely road again

I've heard it said that there's strength to find  
For everything I do - for all I left behind  
It's time to start believing  
There's more than just this daily grind - yeah

I'm not gonna wait and have it pass me by  
The time is getting short to be left behind  
If it's time to make a difference  
Tell me how and show me a sign - yeah !

Here I stand at the crossroads  
Show me a different way  
I gotta move on before I go insane  
Because I can't go down that  
Lonely road again

Here I stand at the crossroads  
Show me a different way  
I gotta move on before I go insane  
Because I can't go down that  
Lonely road - Oh !

Here I stand at the crossroads  
Show me a different way  
I've got to move on before I go insane  
Because I can't go down that  
Lonely road ..... Again !!!
