

"Deep Lines"

Music By : Factory Seconds Band

Lyrics By : Michael Christian Suvia, Dave Robert Moore & Jose' Lopez III

Hard times sometimes
Dealin' with your brothers
Not like most times
Dealin' with your friends
We speak without thinking
Don't care how it feels
Pride keeps rolling
Instead of love's wheels

So - let's turn off the time
Let's roll back the days
We'll shake hands again... Brother
So let's turn off the time
Let's roll back the years
We'll sing this song - just you and I
Like bothers and like friends

Deep lines one finds
Get harder to cover
But the mirrors don't lie
Oh - they leave you without words
Full of good intentions
But a lot of good went wrong
We justify our actions - Instead of holdin' on
So - let's turn off the time
Let's roll back the days
We'll shake hands again... My Brother, yeah
Let's turn off the time
Let's roll back the years
Sing this song - just you and I
Like bothers and like friends

Getting older now
Time is slipping away
It's getting much harder to say, yeah
The things that matter most
The things that lead me to you
Love heals all wounds

So - let's turn off the time
Let's roll back the days
We'll shake hands again... My Brother, yeah
Let's turn off the time
Let's roll back the years
Sing this song - just you and I

Let's turn off the time
Let's roll back the days
We'll shake hands again... Oh My Brother, yeah
Let's turn off the time
Let's roll back the years
Sing this song - just you and I
Like brothers and like friends
Hey - Oh - Like brothers and like friends
