

" Generation Why "

Music By : Factory Seconds Band

Lyrics By : Jose' Lopez III

Anxiety, PMS, ADD

Got no clue what's wrong with me

Behavior D-fies explanation

Searchin' for answers - the "why" generation

Bachelor, Survivor, American Idol

My show's written but I got no title

Bare flesh was shown-so few complained

1/2 dressed at halftime-are we not entertained ?

Don't ask why - The experts lie

Don't ask how - It's 2 late now

The truth is out there

Don't know where

Way back when - people used to care

Thru this confusion I can't think , should I

Seek the light - or see a shrink ?

Car wrecks, Drugs, & beaten Wives

Still athletes live privileged lives

Enhanced Performance - One shot does it

MVP dead, not worth it - was it ?

Don't ask what - their mouths are shut

Don't ask who - Could be U

The truth is out there

Don't know where

Way back when - people used to care

Thru this confusion I can't think , should I

Seek the light - or see a shrink ?

Find the meaning

Where you can

Beyond the vanity of man

How to answer all depends

You de-cide How it ends
